📘 Help about Tokentypes

Enroll a new token

TOTP: Time based One Time Passwords. ▾

The TOTP token is a time based token. You can paste a secret key or have the server generate the secret and scan the QR code with a smartphone app like the privacyIDEA Authenticator turning your smartphone into an authentication device.

Token data

The server will create the OTP key and a QR Code will be displayed to you to be scanned.

OTP length

6 ▾

Some Authenticator Apps only support an OTP length of 6.

Timestep

30 ▾

seconds.

Lasciare le impostazioni di default e cliccare su "Enroll Token"

Enroll Token

Help about Tokentypes

Questo e' il seme a partire dal quale verra' generata la OTP. E' importante che data e ora dello smartphone siano perfettamente sincronizzate, altrimenti le OTP non saranno valide

Enroll a new token

The token was successfully enrolled with serial number **TOTP158335AA.**

Questo numero identifichera' questa OTP nella app su smartphone e sul sito web di gestione delle OTP

The OTP key

Hex: seed://

c2c: [redacted] 1155

Base32:

YLD: [redacted] GFKQ

Click [here](#) or scan the QR Code, if you want to add the Token to your smartphone authenticator app.

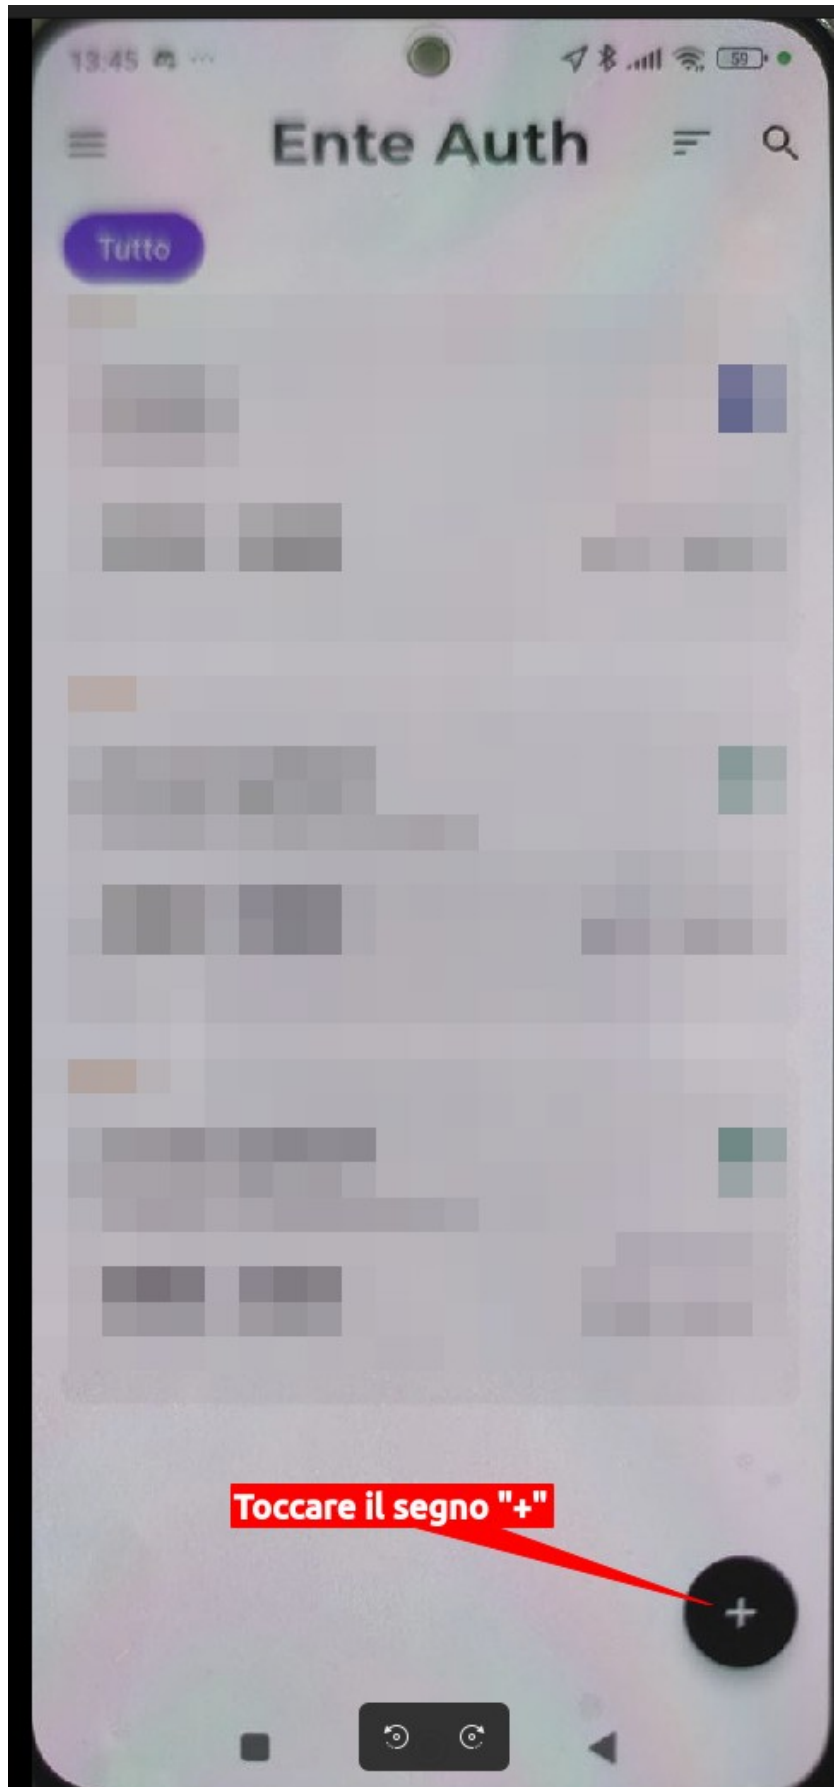

The QR Code contains the secret key of your token. You need to protect it. **If you are in doubt, that someone else saw it, please regenerate the QR Code, when no one else is watching.**

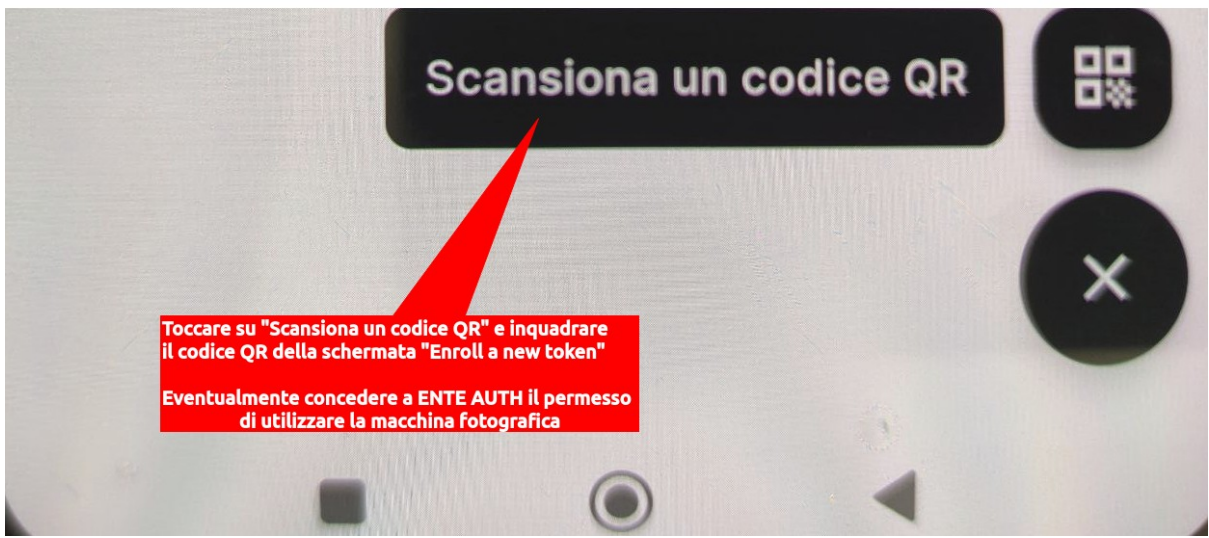

Regenerate QR Code

The token was enrolled, but you still need to verify it before you can use it!

Please enter a valid OTP value of the new token.
